

Rule History Title 30 Texas Administrative Code Chapter 115 Flexographic and Rotogravure Printing Processes

Introduction

The official version of the rules in [Chapter 115, Subchapter E, Division 3](#) is available on the Secretary of State's website.

Each revision is identified by the date the commission adopted the changes. When available, the rule project number, which is the unique identification number from the rules tracking database for the specific rule project, is also provided for reference.

The *Texas Register* publications of the rule proposal and adoption are given for each revision. The proposed rules are approved by the commissioners to be published in the *Texas Register* for public comment. Once adopted by the commissioners, the rules are republished as final in the *Texas Register*.

These rules are submitted for the United States Environmental Protection Agency (EPA) approval as part of the State Implementation Plan (SIP) control strategy to meet the National Ambient Air Quality Standard (NAAQS) for ozone. Links to the *Federal Register* publication of the EPA's approval of these rules and the associated SIP revisions are also included.

The summary information includes the affected sections of the rule, the counties affected, the compliance date, and a brief description of the rule revisions. If the adopted rule does not provide for additional time to comply with any new or revised requirements then compliance with any rule revisions is required by the effective date of the rulemaking.

The rules extend the applicability threshold to include flexible package printers with at least 3.0 tons per year (tpy) of volatile organic compounds (VOC) emissions. The new rule requirements increase the stringency of the VOC emission controls and impose new work practices for associated cleaning activities.

This rulemaking is part of the [HGB RACT Analysis Update SIP Revision \(2010-028-SIP-NR\)](#) (12/07/2011) and [DFW Eight-Hour Ozone Attainment Demonstration SIP Revision \(2010-022-SIP-NR\)](#) (12/07/2011).
