

CAFO General Permit TXG920000 Amendment
Agenda
March 28, 2008

Welcome and Introductions – Charles Maguire, Water Quality Assessments Section Manager

1. Notice of Change (NOC), Notice of Termination (NOT), and Notice of Intent (NOI)
 - Requirement of closure plan to finalize the NOT process
 - Revisions to the NOT process to allow landowners to terminate in cases where operators who fail to terminate coverage or who terminate without submitting a NOI for a new operator
 - Process to handle increases in waste production over baseline permit
 - Owner versus Operator as a permittee

2. Nutrient Management Plans (NMPs) and Nutrient Utilization Plans (NUPs)
 - EPA CAFO Rule Proposal
 - Should State Only CAFOs meet large CAFO NMP requirements?
 - Process for NUPs

3. Methods of Public Notice for NMPs, if required

4. Existing Retention Control Structures (RCSs)
 - Exemptions

5. Liner Certifications
 - Certification by Professional Engineer and/or Professional Geoscientist
 - Sampling protocols

6. Sampling Protocols
 - Timeframe for soil, wastewater, manure sampling
 - Discharge monitoring requirements

7. CAFO Personnel Training
 - Frequency and content of training

8. Other comments
