APWL1004 - 1,3-Butadiene Port Neches, Jefferson County, Texas

Texas Commission on Environmental Quality

TCEQ

Map created on June 25, 2009

This map was generated by the Toxicology Division (TD) of the Texas Commission on Environmental Quality. No claims are made to the accuracy or completeness of the data, or to the suitability of the map for a particular use. This APWL area of concern may contain facilities which have not been identified by the TD. For more information regarding this map, please contact the TD at (512)239-1795.

TCEQ Region: 10
Year Added: 1996
Year Removed: 2009
Comments on Removal: 3 Submitted

- Area Boundaries:**
- * North of Hwy 347
 - * South of the Neches River
 - * East of Merriman Street (extended to Hwy 347)
 - * West of Hogaboom Road (extended to the Neches River)

Why remove this Location and Pollutant(s) from the APWL?

1,3-Butadiene was listed on APWL1004 because the 1996 annual average exceeded the TCEQ long-term Effects Screening Level (ESL), which was 5 ppbv at that time. Although 1,3-butadiene concentrations declined in subsequent years, the levels were still not clearly acceptable based on the available science at that time. However, all annual averages and especially the 12-year long-term average are well below the lowest applicable comparison value based on the most up-to-date toxicity assessment; please see the TCEQ 1,3-butadiene Development Support Document at <http://www.tceq.state.tx.us/implementation/tox/dsd/final.html>. Expert external peer review comments, public comments, and related information for the TCEQ 1,3-butadiene Development Support Document are available at http://allianceforrisk.org/ARA_Projects_%201.3_Butadiene.htm.
